MEET THE FREAKS

OUR STORY

Circus Freaks was born during Creator Christopher Childers' time working with Cirque du Soleil. There was so much crossover talent and he wanted to showcase the things you didn't see in the shows. Aerialists who could sing, dancers who could perform aerial skills, Contortionists that were ballet dancers, and acrobats who could do pretty much everything! He often called them "circus freaks" because they trained mercilessly, kept themselves insanely trim and incredibly flexible, worked at their craft constantly, and were always working hard in the training rooms between shows. Shooting hoops, jumping rope, hand balancing each other, stretching, jogging, lifting weights and singing! A rare group of freaks indeed!

OUR SPONSORS

A VITAL ROLE

The show cannot go on (but it must!) without the critical support from a select set of folks like you—individuals and groups that understand just how uniquely special a night like this is.

You can see beyond the raunchy, delicious fun and recognize that this is a moment to bring together people that might not otherwise cross paths. An opportunity to laugh and share libations during a time when division runs high. You can see that Circus Freaks is a place to fall into community with folks we never we needed, but absolutely do!
